# What a headache!

We invite GPs and Allied Health Professionals to attend a presentation on

## Pain management for chronic headaches and migraines

with

Professor Eric Visser

Churack Chair of Chronic Pain Education and Research

The University of Notre Dame Australia

6th Churack Pain Masterclass

Professor Visser will outline the practical management of chronic daily headaches including migraines, cluster, medication-overuse and cervicogenic headache (e.g. post-whiplash).

As part of his presentation, Professor Visser, will discuss the place of occipital nerve blocks and trigger point injections, facet blocks, Cefaly transcranial TENS and Botox. Attendees are encouraged to bring along any questions or case studies.

Simone Berzen, Pain Physiotherapist/ Clinical Facilitator will give a short presentation on the Persistent Pain Program delivered by Black Swan Health.
