

Kidney Health Australia's Primary Care Education Program in partnership with Black Swan Health is pleased to present an interactive case study based workshop

'eGFR and Drug Dosing in CKD'

Date **Tuesday 26th March 2019**

Time 6.00pm Registration
6.30pm-8.30pm Workshop

Venue 137 Main Street, Osborne Park, WA 6017

Presented by Dr Brian Siva, Nephrologist, SCGH.

Learning outcomes

- State the recommendations for the detection and staging of Chronic Kidney Disease
- Differentiate the accuracy of the CKD-EPI eGFR formula compared to other estimate of GFR
- Identify the relative importance of GFR estimations in CKD drug dosing
- Implement a system to identify patients at higher risk of CKD for a Kidney Health Check

Activity accreditation

- Allocated 4 (Cat 2) points in the QI&CPD program for the 2017-2019 triennium.
Activity number **95802**
This organisation is an authorised provider of accredited activities under the RACGP QI&CPD Program.
- This workshop is developed and endorsed by the Primary Care Education Advisory Committee for KHA
